

MAY

April showers bring May flowers.

MESSAGE FROM Administration

We are in the last weeks of this school year! Now that we have entered the final grading period, it is a great time to reach out to your child's teachers to schedule a conference and ensure a solid finish to the school year. Whether on remote learning or in person learning, it is important to have open, two-way communication between school and home. Below are some tips to ensure that your meeting is successful:

Before the meeting:

- 1-Have a conversation with your child & ask if he/she would like you to discuss anything with their teacher.
- 2-Come to the meeting prepared. Have questions written down in order to make best use of your time with the teachers.
- 3-If your meeting is virtual or telephone, be sure to be in a quiet place, check to ensure you have reliable internet & the microphones work correctly. If you are meeting in person, be sure to arrive a few minutes earlier to park and check in the main office so you can start the meeting on time.

During the meeting:

- 1-Start the meeting on a positive note. You may wish to share something special about the teachers or a comment from your child with him/her.
- 2-Listen to the suggestions the teachers have for your child to do the next few weeks and in the summer break to best prepare for strong start to the next grade level.

After the meeting:

- 1-Share the suggestions with your child & ensure they understand the benefits of following through.
 - 2-Check DOJO, school website & our social media sites during the summer to best prepare for next school year with ample time.
- As always, we are a phone call or email away to further support your child in their educational endeavors!

FRIENDLY Reminders

See May calendars for all end of year meals, activities, events & testing dates. These are posted on DOJO, website & in our social media sites.

Check daily to ensure you don't miss out on anything. ☺
